Judge Ellis
name appears
here as a
Sophomore.

He graduated
in 1855. Served
with distinction
in Confederate
Army. After
the war he
made a name
as an attorney
made a fine
Judge, and
~~now~~ this
time, is the
most popular
of the profession
in the Tulane
Law School.

He is perhaps the most distinguished
member of one of the very best
classes, Centenary ever turned out
S.C.F.

COURSE OF INSTRUCTION, EXPENSES, &c.

—0—

Candidates for admission into the Freshman Class are examined in the following or equivalent studies :

English Grammar, Geography, Arithmetic, Algebra, (through 4 chapters, Davies' Bourdon,) Andrews' and Stoddard's Latin Grammar, Andrews' Latin Exercises, Cæsar, (4 books,) Virgil, (6 books,) Cicero's Orations, Bullions' Greek Grammar and Lessons, Bullions' Greek Reader, Latin Prosody, and Mythology.

Candidates for a higher standing are examined in the same studies, and also in that part of the Course gone over by the class to which they may desire admission.

All students must bring satisfactory testimonials of good moral character ; and those from other Colleges, certificates of dismission in good standing.

Thorough acquaintance with the studies required for admission is indispensably necessary, in order to receive the full benefit of the subsequent College course. It is found by experience, that students imperfectly prepared for the class they enter are embarrassed in their further progress, and seldom repair the want of proper preparatory study.

FORENSIC DISCUSSION and occasional Select Reading in the Classics, throughout the year.

Anthon's Classical Dictionary, Smith's Grecian and Roman Antiquities, and Butler's Ancient Atlas, are used for reference by the Classical Student, throughout the Course.

The members of the Senior Class deliver original orations before the Faculty and Students throughout the year. Greek and Latin Composition will be attended to during the first three years of the Classical Course.

Dictation, Declamation and Composition, in the French and Spanish Languages, will be attended to throughout the whole of the Scientific Course. Chemistry is taught by reci-

tation and lecture, accompanied with experiments. Regular Lectures will be delivered by the President and Professors, upon subjects connected with their several Departments. It is believed that the alternation of familiar Lecture with the ordinary Recitation, is highly calculated to elicit the attention, and ensure the success of the Student.

PRACTICAL INSTRUCTION.

Knowledge without application is unproductive. One great object of the Instructor should be to make the scholar practical as well as theoretical. Much is left for the teacher to supply which is not found in the text books. There is much valuable information which can only be obtained by oral instruction, and a familiar knowledge of the detail of experiment and practice. With this view, all Recitation and Lecture will be rather practical than theoretical, and the Theodolite, Compass, Sextant, Telescope, etc., will be employed by the Professor in actual observations and surveys, thus properly enforcing and illustrating Mathematical and Philosophical principles by practical application.

The course of study, in the various departments, is thought to be

full and thorough. The object of Collegiate instruction is not to complete either a practical or professional education, but to lay the foundation of a character fitted to appear with honor and usefulness in any sphere of life—to bring out and properly balance the powers of the mind, thus fitting the individual for the successful prosecution of the learned professions or higher departments of business.

LIBRARY.

The College Library contains about 3000 well selected volumes, of both ancient and modern literature. The importance of such a library to the reading student, during his Collegiate course, is too obvious to need remark. The library is accessible to all students.

APPARATUS and CABINET.

The College possesses a valuable set of Philosophical, Astronomical and Chemical Apparatus, and also a well selected Mineralogical and Geological Cabinet. The apparatus includes a new Reflecting Telescope, (focal distance, 7 feet,) a Theodolite, Sextant, Compass, Chronometer, Atwood's Machine, Whirling Tables, Electrical Machine, Air Pump, Steam Engine, various combinations of the Mechanical Powers, Batteries, Chemical Tests, etc., sufficient for a thorough and extended course of observations and experiments.

LITERARY SOCIETIES.

There are two Literary Societies connected with the Institution. These are of great utility to young men acquiring a liberal education—improving them in the art of publicspeaking, making them, in some degree, familiar with the proceedings of deliberative bodies, and cultivating systematic business habits. Each Society has a convenient Hall, and a well selected Library—seven hundred volumes, each.

REPORTS.

Bi-monthly Reports are transmitted to the parent or guardian of each student, showing his grade of scholarship and general deportment.

PREPARATORY DEPARTMENT.

In this Department, regular hours of *Study* and *Recitation* are observed under the *immediate* supervision of the Principal. In other respects, the members of this Department are subject to the same general regimen and requisitions as the College student.

EXTRACTS FROM THE STATUTES.

CHAPTER VI.—*Religious Exercises.*—The Exercises of every day shall be opened and closed with prayer by the President or some other member of the Faculty, when all the students shall attend.

2. The students shall attend Divine Worship in the College Chapel or elsewhere every Sabbath.

3. The due observance of the Sabbath is earnestly recommended, and all practices inconsistent with the reverence due to the day are expressly prohibited.

CHAPTER XII.—*Of Commencements, Sessions, Examinations and Vacations.*—There shall be an Annual Examination, commencing on the second Monday preceeding the last Wednesday in July, which shall be Commencement Day.

2. The regular Academic year shall begin on the first Monday in October of every year.

3. There shall be a vacation from the 24th of December to the 1st of January, and from Commencement Day to the first Monday of October in each year.

CHAPTER XIII.—*Of Expenditures*—Every student whose parent or guardian does not reside in Jackson, or immediate vicinity, shall have an academical guardian, nominated by himself, with the consent of his parent or legal guardian, whose duty it shall be to take charge of the necessary expenditures of such student, and with whom shall be deposited such a sum of money as his parent or guardian may think proper. In the article of pocket money, the strictest economy is most earnestly recommended and requested.

N. B. The requirements of Chapter XIII, above, will be strictly enforced

GENERAL INFORMATION.

This College was taken under the patronage of the M. E. Church, South, in 1845, and has been constantly growing in importance and usefulness. It is located in the village of Jackson, about twelve miles from Bayou Sara, in a grove of pine, magnolia, oak and beech, unsurpassed in beauty and magnificence. The location is not only remarkable for its beautiful woodlands, its bland and delightful atmosphere, its pure water, and its unrivalled healthfulness, but for the refinement and morality of the inhabitants. The buildings are large, commodious and substantial, affording ample room for a large number of students.

The government is mild and parental, but consistent and firm: if a student is found to be incorrigibly vicious or idle, he is at once dismissed. The punishments consist of demerit marks, private reproof, public reproof, and suspension. The rewards consist of merit marks, and public honors on the day of commencement. So that by every incentive—by appeals to all the nobler principles of the nature—by affectionate entreaty and friendly counsel—by the hope of distinction and the fear of disgrace—the Faculty endeavor to maintain order and the purest morality.

Although this Institution is under the patronage of the Louisiana and Mississippi Conferences, and although the most of the Faculty are members of the Methodist Church, still no sectarian dogmas are taught, nor are efforts at proselytism used. But while sectarianism is avoided, and the College partakes no more of a sectarian character than it did under State patronage; and while the Trustees and Faculty are determined to abide by their charter, a high moral and religious tone is given to the instructions.
